

collateral fact sheet

Michael Patrick Partners is a nationally recognized design and brand development firm with offices in Palo Alto, California, and Portland, Oregon, managed by the original founders: Dan O'Brien and Duane "Doo" Maidens.

Our 400 design awards tell only half the story. Over the years our firm has earned the trust and the respect of a wide range of companies. We're told there's a tangible Michael Patrick Partners experience. It's a calm, organized environment in which we employ a high level of service and an insightful creative process—an environment in which our client's business objective is our first priority and where we just happen to win design awards.

How we handle an assignment is determined by each client's unique situation. We approach an assignment from your perspective—not ours. This means we present design recommendations that are logical and that track back to your objective.

COLLATERAL CLIENTS

We take pride in delivering an unparalleled level of service—regardless of the client's size.
